Summary

Senior Frontend Engineer with 6+ years of experience specializing in the **React ecosystem** and **Next.js**. Expert in **end-to-end ownership** of high-traffic architectural migrations and scalable B2B solutions. Highly proficient in **AI-augmented development**, leveraging modern LLM-driven workflows to drive 30% faster delivery with zero-overhead execution.

Professional Experience

- 2019–Present **Lead Frontend Engineer (Full Ownership)**, OOO "Za Rulem", Moscow/Remote
- Single-handedly orchestrated the full-scale migration of Russia's largest automotive portal to **Next.js** and **Redux**.
 - Independent management of the entire frontend lifecycle, from architectural design to deployment and performance monitoring.
 - Achieved a **40% boost in Core Web Vitals** by implementing custom SSR/SSG strategies and intelligent asset optimization.
 - Developed a robust mobile-first responsive architecture, resulting in a significant increase in organic mobile traffic and SEO rankings.
 - Independently refactored critical legacy systems into a modern, maintainable TypeScript-based component library.
- 2024–Present **Senior Product Developer (Contract)**, OOO KP-IT, Moscow/Remote
- Independent delivery of high-impact specialized web applications:
- Statistics Dashboard**: Engineered a secure enterprise-grade analytical system. Developed data visualization modules and multi-step form engines with 100% data integrity.
 - Digital Library**: Solely developed a touch-optimized kiosk application with a focus on smooth 60FPS performance and intuitive navigation.
 - Coupon Hub**: Architected and deployed a scalable marketing ecosystem for high-load campaigns, maintaining 99.9% stability under rapid traffic spikes.
 - Full management of server-state logic using **TanStack Query** across multiple standalone products.

Technical Skills

- Frontend **Next.js, React, TypeScript, JavaScript (ES6+)**.
- Architecture **SSR, SSG, Server Components**, Modular Design, Performance Optimization.
- State/Data **Redux Toolkit, Redux, TanStack Query**, Context API, REST APIs.
- UI/UX Material UI (MUI), Styled Components, Tailwind CSS, SCSS, Figma, Storybook.
- Engineering GitHub Actions (CI/CD), Git, Jest, React Testing Library, Agile Methodology.
- AI Efficiency Cursor, Claude, Gemini, Advanced Prompt Engineering.

Education & Certifications

- 2011 Specialist in Radio Engineering & Translation, Moscow Aviation Institute.
- Cert Google AI Essentials Certified (AI-Augmented Development Workflow).
- Cert Meta Front-End Professional Certificate (Advanced React Architecture).

Languages

- Russian Native
- English Upper-Intermediate (B2)
